

## SL BAR PANELS

Our bar panels come in 5 rail and 6 rail sections. Our sizes are 10' 12' and 16'. They make it quick and easy to set up a fence-line / corral. Our panels are light enough to set up by yourself, yet durable enough to withstand anything that come up in your daily cattle handling situation. Our panels can be hooked up to both our panel gates and our fence-line feeders with ease.

**TOMBSTONE FEEDERS**

**98" x 58" Bale Feeder** - our bale feeder comes in two pieces for easier shipping and handling. Can easily be joined on site.

**BFE-TMS** - Tombstone feeder 8' diameter 58"H x 96"W

**SF2-HD** Heavy-duty two-piece bale feeder 98"H x 58"W

**FEP-HD FEEDER PANELS** - our feeder panels can be used to extend any of our two piece feeders to give it twice the capacity for a lower cost of buying two feeders

**BUNK FEEDERS** - our bunk feeders come in 12' and 20' sizes. Made out of 12g material with HD 5x5 legs

**BFW-24 FEED WAGON** - our 24' feeder wagon has 40 feeding spaces, can be used for round bales, square bales, grain, or silage. Wagons come in 16', 20', 24' and 30' options.

**FENCE-LINE FEEDER** - our fence-line feeder comes in 12' and 20' lengths and is made with 12g material and HD 5x5 legs. This can be integrated with our panels and panel gates. Add as many feeders as needed, this feeder panel has the same connections as our panels and panel gates.

**SL GATES**

Our cattle gates come in different sizes of 4' 10' and 16'. They are easy to install and come with heavy duty adjustable hinges with 9" x 3/4 bolts to fasten them to any post. Our gates are built with a .100 wall round tube 1.66" frame and 1.25" rails.
